ROGERS' GLAD GARDENS

W. H. ROGERS

OAKWOOD STREET EAST & TAYLOR AVENUE
GREENLAWN, LONG ISLAND, NEW YORK

Spring 1953

Once more the time has come to make up my catalog and present for your consideration a list of the many fine varieties which I am growing. And I want to take this opportunity to express my thanks to the ever growing number of customers throughout the United States, Canada, and some foreign countries, who have favored me with so many fine orders. It is also a great pleasure to receive so many nice letters from customers telling of their satisfaction with the bulbs and their success with them, sometimes winning at shows and at other times just plain enjoyment of the blooms. I like to think of all these people as friends and fellow hobbyists, and not just customers, for after all I am as much of a hobbyist, as a grower, and enjoy the same thrills as my customers and shall strive to continue along this same line, and give my customers the same satisfaction I like to have.

To those of you who exhibit at the shows, no explanation of the following is necessary. But many are not interested in exhibiting and do not understand, and so for their benefit may I explain that this is the official classification as used by most shows, however, it can be your guide in making your selections as to color and size of florets, just for home use.

CLASSIFICATION KEY

Sizes—

- Miniature Glads—100 (Florets under $2\frac{1}{2}$ inches).
- Small Glads—200 ($2\frac{1}{2}$ inches through $3\frac{1}{4}$ inches).
- Medium Glads—300 (Above $3\frac{1}{4}$ through $4\frac{3}{8}$ inches).
- Large Glads—400 ($4\frac{1}{2}$ inches through $5\frac{5}{8}$ inches).
- Giant Glads—500 ($5\frac{1}{2}$ inches and larger).

Color Classes—

Smoky shades—85 (red smoky).
- 86 Lavender and/or Smoky Rose.
- 90 Any other color; poly-chromes.

For example the number preceding Ruby, is 252. The 200 means that the floret size is 200 (florets $2\frac{1}{2}$ inches through $3\frac{1}{4}$ inches) and the 52 designates that its color is deep red.

PLEASE READ CAREFULLY BEFORE ORDERING

TERMS, PRICES AND SHIPMENT — On all orders for \$5.00, or less, cash with order — over \$5.00, 25% cash with order and balance before shipment. *Unless full cash or at least 25% deposit accompanies order, or request to be reserved, the order can not be booked.* Minimum order \$3.00, please. Minimum foreign or Canadian order \$5.00.

I cannot accept orders for less than the smallest unit quoted. For instance, where 2 for 30, one cannot be had for 15. Five bulbs can be had at the 10 rate and 50 bulblets at the 100 rate only when the price is \$1.00 or more per 100. Unless price is listed per 10, *the per 10 rate does not apply*, but only the rate that is listed *no matter how many ordered*. Transportation to points within the United States and Canada, will be paid by me when weather will permit shipment by parcel post, safe from freezing. *If you must send an order for less than the above minimum requested, then 25 cents extra must be added* to help pay for packing and postage. Parcel post shipments cannot be made safely until spring but if shipment is desired before then, I will ship express immediately, charges collect, and include extras to help in paying such charges. As is the custom of all shippers, I will include extras anyway and in place of many complicated, discount offers, I will give additional overcount or extras depending on size of order when cash in full accompanies the order. You might suggest which you prefer. You may be sure these extras will fully cover these discounts and then some. If you have ever ordered from me you know about my generosity and if you are to place your first order you will soon be convinced.

SUBSTITUTION — All stock offered subject to prior sale. I will not substitute either size or variety without you so direct and will refund immediately on any item I cannot supply. If you wish substitution, please be sure to indicate your desire by using spaces on order blank for that purpose. If you should check substitution for both "nearest size" and "similar color," I will always substitute the size first, if still available. If you care to make a second choice when sending your order, instead of leaving selection to me, it would be greatly appreciated. By following these suggestions it might save correspondence and also give you a better substitution than could be made after exchange of letters, during which time the best substitute might have been sold out. The foregoing is especially applicable to orders for the small varieties in many of which the supply is more or less limited. I will always make substitutions and ask for your approval before final entry of your order.

As I am a small grower and will not buy bulbs for resale, but sell only those bulbs that I have grown in my own garden (with the exception of the 1953 new introductions and several very recent introductions listed along with these for 1953), my supply is limited and in some varieties and items very limited. As will be noted, in some varieties my stock is so small that I must limit sales to one or two bulbs to a customer. Probably I should not offer these at all, but I know they are something many of you would like to get as soon as possible. So in order that you may benefit, I will sell a few although I should probably wait another year

until I increase my stock. The listing of these scarce items proved so popular last year that I feel I must repeat it again this year. By selling only these bulbs which have been hand dug, cleaned, and graded by myself and properly cured and cared for I know I am sending you quality bulbs that should give excellent results. In addition to this the bulbs for every order are selected and packed by myself. My files contain a great number of fine letters commenting on the quality of my bulbs.

"The bulbs I purchased from you this spring are giving the most beautiful blooms in my garden. One couldn't expect better. They are doing well in spite of the heat and drought."

Mrs. M. K., Pennsylvania

* * * *

BULB SIZE — Large size bulbs $1\frac{1}{4}$ " and up. Medium size $\frac{3}{4}$ " up to $1\frac{1}{4}$ ". Small size $\frac{1}{4}$ " up to $\frac{3}{4}$ ". These measurements being by diameter and not to be confused with circumference measurements. Orders are filled and set aside as fast as received using the largest bulbs available in the respective sizes when order is received.

BULBLETS — By purchase of bulblets your new additions are purchased at the lowest possible cost. You can purchase varieties which you otherwise might consider too expensive and you will be surprised how quickly a few bulblets will get you started. By the purchase of bulblets you should not expect too many blooms the first year but many times you are happily surprised. Neither are you going to get the size spike you will get from the larger bulb the next year. Even though I have just suggested the purchase of bulblets, I feel that I should also give a word of caution. If handled properly some varieties will germinate almost 100 per cent, while other varieties will germinate a much smaller percentage and therefore it is not possible for me to make any guarantee whatsoever as to germination or growth. And furthermore not all varieties produce large bulblets and neither is it necessary to have large bulblets to get good germination, but they should be good, plump, mature ones. I will always send good mature ones and the largest available. In my opinion, to get best results they should be peeled or cracked before planting and then planted right away before they become dry or hard. I also believe that better germination is obtained if not planted until the ground becomes warm enough to induce prompt germination. I have a reputation for sending out highest quality bulblets.

GUARANTEE — It is my intention to send out only good, clean, healthy bulbs and bulblets and true to name. I make no guarantee as to growth and will in no way be responsible for the crop. If upon receipt of bulbs, you find them unsatisfactory, return at my expense and I will cheerfully refund the full purchase price. And furthermore if you later find any not true to name, I am ready to replace, refund, or make adjustment.

INSPECTION — My glads have been inspected by the New York State Department of Agriculture and Markets and are shipped under its certificate of inspection. No. 1852.

SERVICE — Whether your order is large or small, it will have prompt attention. It will be attended to by me personally. If you do not get prompt acknowledgment, please notify me at once for either your order or my acknowledgment has gone astray. And I always send a card when I make the shipment so that you may know it is on the way and so be looking for it. You will find my service is unsurpassed by any shipper.

GIFT CERTIFICATES — Don't forget to take advantage of one of my gift certificates. They are just as appropriate for a birthday gift or for any other time as they are for Christmas.

WHOLESALE — Due to my greatly increased retail sales the last two years and because I limit my plantings and supply to what I can do myself without help except from Mrs. Rogers, I will probably have very little to offer in the way of wholesale this year. The only varieties that I could list as being available at wholesale are Snow Princess and Surfside and these can be offered in lots up to 1000 each. Consequently I have no wholesale list. If you are interested in wholesale lots of any variety, use the handy form in catalog opposite the order blank and let me know just what varieties, and in what quantities you are interested and I will gladly reply as to whether I can supply them, and if so will quote price.

ORDER EARLY — On account of my limited supply in some varieties you should not delay in placing your order. Even though I have a good stock of a variety this also might be sold out early, for like the operation of a store where it often happens that many customers want the same item all at once with the result that the current stock is soon exhausted. In the store a new supply can usually be had soon but it is not so with my supply of bulbs for I do not buy for resale and so must wait for next year's crop to replenish. Orders will be filled and set aside as fast as received. If you are not sure of all you want at one time, send your order for what you do know you want early and add to it later.

SPECIAL DELIVERY AND AIR MAIL — A special delivery letter will not reach me any sooner, and possibly not as soon, as a regular letter but from a distance an air-mail letter will get here much quicker.

OPEN UP YOUR SHIPMENT — Immediately upon receipt of your bulbs, unpack and open each bag to let the air in, for they need the air at all times. If damp on arrival allow to dry off and then quickly put in storage, unless it is time for planting. Ideal storage temperature about 40°, but when that is not available, make it as cool a place as possible, usually just off cellar bottom in the coldest part of your cellar, as I would not store directly on cellar bottom, because of possible dampness. By all means do not let them freeze.

SPECIAL ATTENTION — Please note that varieties in this catalog are listed in three separate sections: MINIATURE and SMALL FLOWERING VARIETIES, SMOKIES, and LARGE and MEDIUM FLOWERING VARIETIES.

ASK FOR PRICES ON BULBLETS WHERE MARKED *

In some varieties bulblets are available as per quantity and prices listed, in some varieties there are none available, and in others I have a limited amount but not enough to warrant their being listed. The varieties in this last class are marked * and should you be interested in bulblets of these, use the handy form in catalog opposite the order sheet to make your inquiry and I will promptly reply as to whether any are still available and if so, quote the price.

MINIATURE AND SMALL FLOWERING VARIETIES

In this section I am glad to be able to list some fine 1953 introductions, as well as a good number of additional varieties of both recent introductions and old timers.

You should be able to find most any color or type you wish to fill your every want, be it for exhibition, arrangements, corsages, table decorations, or something else. There are intensely ruffled ones, pointed petals, lacinated, face-ups, plain petals, and even multipetals. Every variety listed has its usefulness in one scheme or another.

In attending shows during the past several years you have probably observed the ever increasing numbers of these small varieties, both in the exhibition and arrangement classes, showing their rapidly growing popularity. Many people are now beginning to realize how much more appropriate these are for the home, especially the small home, than the larger varieties and they are unsurpassed for table decorations. I have recently learned that there are those, who up until a short time ago would grow only the large exhibition type, and were and still are top exhibitors in those classes, and had no use for the small type ones, are now growing the little ones for their own home and occasionally slipping one in on the show table.

In connection with the exhibition classes at various shows, let me suggest to you, who are interested in showing the 100 size class, or real miniatures, that you get in touch with your show committee and have them make classes for the 100s separate from the 200s, even though they may at first have to combine several colors in order to make good competition. This combining of colors will soon not be necessary when it is known the 100s have their separate classes. Our Long Island show at Farmingdale does this and the 1951 show brought out an increase in number of entries over 1950, and in 1952 nearly every color class in the 100 class was well represented. Very few shows do this but it is unfair to expect a face-up, which are mostly 100s, or any other 100, to compete with the larger Peggy Anns, Yellow Birds, Silversides, Statuettes, Smilettes, etc., which are the 200s.

In this list of small flowering varieties I have listed a few of the 300 class officially classified as medium. These few varieties of 300s have the general characteristics of the small varieties but their slightly larger petal size has caused them to be classified 300 and even so many are no larger than some that are classified 200. Some of these have previously been classified 200 and visa versa, some that were previously in the 300 class are now in the 200. The classified lists as published by the New England Gladiolus Society and the North American Gladiolus Council and which lists are official for shows held under their respective rules, differ on some varieties as to size and on others as to color. This can be accounted for by the fact that some varieties might grow a trifle larger in one locality than in another and as for color, some shades of some colors are so close to some shade of another color that weather, soil and growing conditions in various sections of the country might make just enough difference in the color to make it appear different.

Because of this difference in classification, and where there is a difference, I am listing both classification numbers according to their latest published lists. So if you plan to exhibit, you will have to inquire under the rules of what society the classifications are being used in order to make the proper entry.

The larger varieties in the 300 classification will be found listed in the other section of this catalog.

NEW INTRODUCTIONS FOR 1953

From C. C. Van Voorhis

SONOPAL — Class 263. Parentage, Little Pal and Maroon Butterfly.

Originator's description—"Light and medium rose, crimson spot in light yellow blotch. $3\frac{1}{4}$ inch florets on an 18 bud spike with 6 open and 4 in color. Flowerhead, 21 inches; field height, 50 inches. Bloom in 70 days."

This was champion seedling at the 1952 Farmingdale Show, winning over all the larger varieties, which is quite an accomplishment for a little glad. Also, a blue ribbon winner at Lebanon, Union, and Maryland. I have not grown this myself, but having seen it, I can highly recommend it to you as being both attractive and colorful. I shall surely grow it in the future.

1952 INTRODUCTIONS

CLAUCARCY —Class 241—(by Maynard)—Parentage, Pink Paragon and Snow Princess.

A very nice shade of light pink with cream throat and white mid-ribs. Up to 20 buds, with 6 and 7 open, and 5 and 6 in color. This won consistently high ratings at 4 trial gardens in 1951, and was a consistent winner at the shows in 1951 and 1952. I grew Claucarcy in 1952, but unfortunately did not have a bloom for the Farmingdale Show.

BULBS — Large 1.00 - 10 for \$8.00

Medium 75c - 10 for \$6.00

Small 50c - 10 for \$4.00

BULBLETS - 3 for 25c

15 for \$1.00

100 for \$5.50

FIJI — Class 277—by Jones—Parentage Unknown.

Very light lavender with velvety bright red throat blotch edged with cream or light yellow. Slightly ruffled, $3\frac{1}{4}$ inch florets on a 12 bud spike, with 4 open. Not a tall one but very attractive and quite different. This is early and bloomed before show time for me. You should try it at this new low price.

BULBS — Large 50c - 10 for \$4.00

Medium 35c - 10 for \$2.80

Small 25c - 10 for \$2.00

Bulblets - 5 for 25c

BEIGE ORCHID · Class 390, by Van Voorhis—Parentage, Bruce Van and Brown Orchid.

Light to deep beige with scarlet feathering in a buff throat. A truly different and unique color. A blue ribbon winner at Haddonfield, Farmingdale, Lebanon, Burholme, Saginaw, Mount Pleasant, and recent introduction at Binghamton. I have grown this the past two years, with excellent results. The Haddonfield win was mine.

236 MASSASOIT—A fine, small glistening red	2- .25	4- .25	6- .25	40- .25
252 with darker markings. A sparkling color that stands out. Opens 4, with 4 more in color. An excellent one.	10-1.00	10- .60	10- .40	100- .50
220 MAZIE—Beautiful orange with lighter throat.	2- .25	3- .25	5- .25	25- .25
222 Extra fine for cutting and can win a ribbon too.	10-1.00	10- .70	10- .50	100- .75
240 MILDRED PETTMAN—Nice light pink with creamy white throat. Opens 6 with 4 in color, with spikes up to 15-16 buds. Excellent for cutting.	3- .30 10- .80	4- .25 10- .60		50- .25 100- .40
230 MINNETONKA—Light salmon with golden yellow throat, in which there is a suffusion of rose. Open 6 and 7 on spikes up to 18 buds.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	*

	large	medium	small	bulblets
224 MISS JUDY—A very beautiful shade of deep orange, with darker splashes at edges of petals and a bright yellow throat. Open 4 on spikes up 15-16 buds. Stock is still very scarce.	1- .25 10-2.00	2- .30 10-1.20	3- .30 10- .80	10- .25
240 MISS THREE RIVERS—Lovely shade of light rosy pink, with deeper rose stippling in a yellow throat. Opens about 5, lightly ruffled florets on a 15-16 bud spike. Very good, quite late variety.	1- .20 10-1.60	2- .30 10-1.20	3- .30 10- .80	
206 MIST MAIDEN—Cream with pinkish lavender tinge or possibly better to say very delicate light lavender shading to full cream throat. A very dainty one.	1- .50 3-1.25	1- .35 3-1.00	1- .25 5-1.00	*
276 MODISTE—Very light lavender and violet with dark purple blotches. Very odd and good.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	25- .25 100- .75
366 MORAVIAN—Beautiful shade of lavender, with a deeper feather in a cream throat. Very attractive.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	25- .25 100- .75
242 MRS. CALVIN COOLIDGE—Clean medium pink with full creamy yellow throat. Slightly ruffled and dainty. An old variety.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	25- .25 100- .75
206 MULTIPETAL No. 1—Cream with red markings in throat. A face-up, with many petals. As many as 12. Somewhat resembles a rose. A real novelty.		1- .25 10-2.00	1- .25 10-2.00	*
? MY DARLING—a 1952 introduction not yet classified by classification committees, but as 136 by originator, which does not seem correct to me. It is a 100 and very colorful. A hard one to describe. Lower petals yellow, lightly edged very deep red or purple with less of the yellow on top petals and a very bright velvety deep red throat blotch of unusual formation. Slightly ruffled, and pointed petals. Quite spectacular.	1- .35 3-1.00	1- .25 10-2.00	2- .30 10-1.20	*
262 MYSTIC—A distinctive shade of medium rose, with creamy white throat, the back part of which is covered with a peppering of deeper rose. A real old timer, and a good one.		1- .35 Limit of one to a customer		
230 NADIA—Light salmon with clear yellow throat, lower petals mostly yellow. Open 6 and 7 florets on tall, straight spikes. One of the best exhibition varieties.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	
354 NEGUS—A wonderful solid black red, with 6 or more florets open on an 18 bud spike. Excellent attachment and placement of florets. One of the very best.	1-1.00	1-1.00	1-1.00	Limit of one to a customer
222 NIFTY—Medium orange shading, lighter to a full clear, bright yellow throat. Another old one you should have.	1- .25 10-2.00	2- .30 10-1.20	3- .30 10- .80	*
236 OBERON—Brilliant orange scarlet, with slightly darker markings in throat. Opens 4, with 4 more in color. Early and distinctive.	3- .30 10- .80	4- .25 10- .60	6- .25 10- .40	25- .25 100- .75
206 OCEAN SPRAY—White with beautiful amber blotch. A very popular, beautiful and worthwhile variety. Early.	2- .30 10-1.20	3- .30 10- .80	5- .25 10- .50	*
286 OLD SOUTH—Smoky old rose, with small deeper blotch diffused with cream. May grow oversize from large bulbs, but from smaller ones is excellent. Opens 5 on a 15 bud spike, and is a hard one to beat for the show table. Stock not plentiful.	1- .35 10-2.80	1- .25 10-2.00	1- .25 10-2.00	

	large	medium	small	bulblets
222 OLIVE MARIE BROWN—Beautiful blending of deep yellow and bronze. Opens 4-5 florets, and a strong contender in the orange class.	2- .25 10-1.00	4- .25 10- .60	6- .25 10- .40	40- .25 100- .50
222 ORANGE BUTTERFLY—Bright medium orange with bright yellow throat, with a slight trace of red in it. This can really open up the florets, 8 to 10 of them, and is a hard one to beat. Rather late.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	
222 ORANGE DELIGHT—Suffusion of dark and light orange, with bright red orange throat blotch. Lacinated and very pointed petals. Very colorful and excellent for arrangements.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	15- .25
220 ORANGETOWN—Clear, light medium orange with lighter throat and deeper feathery blotch. Up to 9 open and 4 more in color on 18 bud spikes. A stretchy one.	2- .30 10-1.20	3- .30 10- .80	4- .25 10- .60	*
222 ORANGE TWEEDLE—Rich orange with rose lines in gold throat. Early	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	*
366 ORCHID SPRAY—Not a small type glad, but its orchid like characteristics induce me to list it here. Very delicate lavender, with cream throat lightly peppered light lavender. Long, slightly ruffled, and pointed petals. 12 to 14-four inch florets on small wiry spikes.	1-1.00	1-1.00	1-1.00	Limit of one to a customer
236 OSAGE—A beautiful clear scarlet, with slightly deeper throat and mid-ribs. Opens 5 to 7 on 15 to 18 bud spikes. A hard one to beat in the tough scarlet class.	2- .30 10-1.20	3- .30 10- .80	4- .25 10- .60	*
206 PALE MOON—Very clear, pale yellow or cream, a bit darker in throat. Not a color mark on it. Opens 4, with 4 more in color, on 14 bud spikes. Early.	2- .30 10-1.20	3- .30 10- .80	4- .25 10- .60	
162 PATTY BERG—Deep rose, suffused with white, and with silver edging. Very small and a grand color combination. Much in demand for arrangements as well as show.		2- .25 10-1.00	3- .25 10- .70	*
262 PEASANT MAID—Clear, very deep rose, slightly darker in throat. Opens 6-7, with 4-5 more in color, on 16-17 bud spikes. A winner.	1- .75	1- .50	1- .25	
240 PEGGY ANN—Bright pink with fine lavender markings on a full cream throat. Opens 5-6 butterfly florets, with 5-6 more in color on spikes up to 18 buds. One of the greatest contenders for high honors.	1- .20 10-1.60	2- .30 10-1.20	3- .30 10- .80	
240 PERI—Pink with cream throat, tiny, ruffled, fairy like florets, with lacinated, pointed petals. Opens 4-5 small florets, on 15-16 bud spikes.	2- .25 10-1.00	3- .25 10- .60	5- .25 10- .70	25- .25 100- .75
170 PERIWINKLE—Clear, velvety purple with a darker shade in throat. A slow propagator and stock is scarce.	1- .50	1- .50	1- .50	Limit one to a customer
236 PERKY—A grand scarlet with brighter throat. A regular winner with 5 or 6 open. A real perky one.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	25- .25 100- .75
210 PETALS OF EIGHT—Pale yellow with red throat scratches. An oddity with 8 petals for each floret.	1- .35 3-1.00 10-2.80	1- .25 10-2.00	2- .30 10-1.20	10- .25
233 PETER PAN—Heavily ruffled, deep orange pink with deeper orange mark in a lighter throat. Will open as many as 8 on spikes up to 15-17 buds. A flashy one.	1- .50 3-1.25	1- .35 3-1.00	1- .25	

	large	medium	small	bulblets
101 PICCOLO—Creamy white with purplish red	3- .30	4- .25	6- .25	50- .25
107 throat. Very small florets on tall, willowy spikes. A very spectacular face-up. Excellent for corsages, arrangements, and show. Early.	10- .80	10- .60	10- .40	100- .40
241 PINK BUTTERFLY—Very light pink with creamy yellow throat and diffused yellow and crimson blotches. A pleasing combination.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	40- .25 100- .50
240 PINK RIBBON—Beautiful bright pink with cream throat with rose pepper or stippling. 5 and 6 open florets, nicely placed on tall slender spikes make this a real contender.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	*
341 PINKIE—Beautiful shade of light medium pink with strawberry feather in throat. 5-6 open florets on a 16 bud tall spike, make this a beauty. A different pink.	1- .25 10-2.00	2- .30		10- .25
140 PINKIE DOT—Soft pink with a very full creamy throat. Very dainty face-up that grows very straight and tall.	2- .30 10-1.20	3- .30 10- .80	4- .25 10- .60	20- .25 100-1.00
390 PINOCCHIO—A blend of orange, pink and yellow with slight reddish feather. Opens 5-6 ruffled florets on 16-17 bud spikes. A novelty.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	
162 PRETTY LITTLE DOLL—Rose edged and diffused with cream and with deeper rose throat. Lacinated and pointed petals. Florets very small and distinctive.	1- .50 3-1.25	1- .35 3-1.00	1- .25 3- .65	
210 PRIMROSE—A small cream or very light yellow, with lacinated and quite pointed petals. A very dainty one.	1- .20 3- .50	1- .20 3- .50		
Limit of three to a customer				
270 PURPLE MARVEL—Very rich purple, slightly darker in throat. Opens 5 on a 15-16 bud spike. 1952 introduction.	1- .50 3-1.25	1- .35 3-1.00	1- .25 3- .70	*
271 PURPLE ORCHID—See new introductions.	1-1.00	1- .65	1- .35	10-1.00
270 PURPLE TWEEDLE—Beautiful shade of clear purple with full yellow throat, dotted with a few specks of purple.		1- .20	2- .30

286 THE EMIR—Smoky old rose overlaid violet with diffused rose and cream throat. Very unusual coloring and floret formation. Long, narrow, pointed petals.	1- .50	1- .50	1- .50	
	Limit one to a customer			
266 THE ORCHID—Light lavender with dark lavender markings in a cream throat. Lacinated, ruffled, and pointed petals make this a good imitation of an orchid. Excellent for corsages.	1- .20	2- .30	3- .30	
366 THOMAS E. WILSON—Salmon red with full creamy yellow throat. A nice face-up that will open 5 (rather unusual for a face-up) and often wins the blue. Quite early.	3- .30 10- .80	4- .25 10- .60	6- .25 10- .40	40- .25 100- .50
162 TINY ROSE—Small medium rose with deep rose blotch which is diffused and edged with cream. Opens 5 dainty florets on a nice spike. An excellent little one that often wins over the larger ones.	2- .30	3- .30	4- .25	
206 TINY TIM—Creamy white with slight lavender tinge and a suffusion of lavender in a deeper cream throat. Will open up to 10 on tall spikes and while it sometimes grows oversize it still produces some wonderful show spikes.	2- .25 10-1.00	3- .25	5- .25	25- .25
110 TINY YELLOW—Tiny florets of bright, real yellow with red throats. A face-up. 1951 introduction and stock is very scarce.	1- .75	1- .75	1- .75	
	Limit one to a customer			
312 TOBERSUN—Medium yellow with fine red lines in lower throat petals.	3- .30 10- .80	4- .25 10- .60	6- .25 10- .40	50- .25 100- .40
163 TONY BOY—Rose red with striking clean white throat, in fact throat petals are just barely edged rose. Pointed and lacinated petals add to the charm of this attractive and colorful variety. Opens about 4 on spikes up to 16 buds.	1- .50 3-1.25	1- .50 3-1.25	1- .50 3-1.25	
378 TRICOLOR—Deep pansy violet with ivory throat and deep ruby or bright purple blotches. An unusual color that comes near to red, white and blue. I understand this to be re-classified a 200.	1- .50	1- .35	1- .20	
	Limit two to a customer			
300 TUNIA'S SNOWBALL—A somewhat ruffled pure white.	1- .50	1- .50	1- .50	
	Limit one to a customer			
250 TWEEDLEDEE—An odd suffusion of red and gold. Gold edges and gold throat. One of the very popular tweedles and often a winner.	2- .30	3- .30	4- .25	
265 TWEEDLEDUM—Deep rose with yellow throat prominently feathered deep rose. An unusual combination of colors. To us it will always be "Funny Face," the name given it by our granddaughter. Many times a winner.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	40- .25
232 TWINKLES—Deep orange salmon with full yellow throat and slight reddish feather (almost a yellow with wide border of salmon). Up to 6 small, heavily ruffled florets open on a 15 bud spike. Narrow, pointed petals. A real stunner.		1- .20	2- .30	
262 VIOLA—Reddish lavender with deep rose or purple blotch and white mid-ribs. Opens 3-4 on spikes of 12-15 buds.	2- .25	3- .25	5- .25	
236 VIVID—Small, vivid, clear scarlet. A real nice one and appropriately named.	2- .30 10-1.20	3- .30 10- .80	4- .25 10- .60	*
290 WALLFLOWER—A blend of brown and salmon with red blotches on a yellow throat. Very odd and surely something different. Stock very limited.	1- .75	1- .75	1- .75

	large	medium	small	bulblets
100 WEDDING CAKE—Very small, snow white face-up. Opens 4 tiny florets (rather unusual for a face-up) on spikes of 11-12 buds. Very good. You will like this one at this new low price.	1- .35 10-2.80	1- .25 10-2.00	2- .25 10-1.00	
366 WEDGEWOOD—Rich, live lavender with prominent cream throat and nicely ruffled florets. One of the most beautiful glads grown and extremely popular.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	
200 WHITE BUTTERFLY—Excellent white with soft cream throat. An old variety still in the running with 5 open on a 15 bud spike.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	*
200 WHITEHALL—Pure white. Another old one ,that will also open 5.	2- .25 10-1.00	3- .25 10- .70		25- .25 100- .75
200 WHITE LACE—Snow white with ivory throat, 300 Not a color mark on it. Extremely heavily ruffled, waxy florets that are very beautiful. Sometimes short stems, but you will still want it. 1951 introduction.	1- .25	2- .25	3- .25 10- .70	10- .25
200 WHITE QUEEN—Fine white sport of Queen of Bremen. Opens 4 with 4 in color on fine, wiry spikes of 15 buds.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	25- .25 100- .75
200 WHITE RAYS—Another worth while good pure white on a tall wiry spike.	3- .30 10- .80	4- .25 10- .60		50- .25 100- .40
200 WHITE RIBBON—Beautiful, absolutely pure white. Opens 5-6 slightly ruffled florets on a tall spike of 16 buds. A strong contender in the large white class.	1- .35 3-1.00	1- .25 3- .70		
100 WHITE SATIN—A very small and very popular pure cream white with white stamens and pistil. A face-up. Very good for weddings, arrangements, etc.	2- .25	3- .25 10- .70	5- .25 10- .50	25- .25
201 WHITE TWEEDLE—White with violet rose plume. One of the few blotched small varieties. Also one of my favorites.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	25- .25 100- .75
200 WHITE WINGS—Pure white with lavender darts in throat. Long, pointed and lacinated petals. Opens 4 on nice long spikes of 13-14 buds. Very attractive and dainty.	1- .50 3-1.25	1- .35 3-1.00	1 .25 3- .70	
236 WILL SCARLET—Beautiful, small, clear scarlet. Opens 4 grand florets on a nice spike. An old one that should be in every garden of small ones.	3- .30 10- .80	4- .25 10- .60	6- .25 10- .40	40- .25 100- .60
107 WINTER CARNIVAL—Creamy white with quite an edging of rosy pink on all petals. A face-up. Always a sell out.	1- .25 10-2.00	2- .25 10-1.00	3- .25 10- .70	10- .25
240 WISP—Small, very light pink with slight rose feather in a cream throat. Long, very pointed, lacinated petals. Wonderful for arrangements.	2- .30	3- .30 10- .80	4- .25 10- .60	
101 WOODBURY—Creamy white with soft rose markings in throat. A dainty face-up with small, needlepoint petals. Produces few bulblets and so stock is scarce. Always a sell out.	1- .25	1- .25 10-2.00	2- .30 10-1.20	
107 WOOD FAIRY—Cream with rose tinge and markings at edge of petals and with small carmine throat blotches. Tall, willowy spike with 14-15 beautiful small florets. Very dainty.	1- .25	2- .30 10-1.20	3- .30	*
124 XANTHIA—Bright, medium orange with red markings in a lighter throat. 45 nice, small florets open on a slender, wiry spike of 13-14 buds. This is a dainty one from New Zealand and not to be confused with the large 410 variety of Xanthia by Hatch.	1- .40	1- .30	1- .20	

	large	medium	small	bulblets
212 YELLOW BIDDLE—Diffusion of buff and cream with full yellow throat. Somewhat pointed and lacinated petals.	1- .25			
210 YELLOW BIRD—Clear, medium yellow with no markings. Opens up to 10 on a 15 to 18 bud spike, with balance showing color. A vivid and beautiful yellow a great winner and one of the best small glads.	1- .20 10-1.60	2- .25 10-1.00	3- .25 10- .70	15- .25
210 YELLOW RIBBON—Very clean, vivid, light yellow. Another good one and excellent for the show table as whole spike is open or shows color.	2- .25 10-1.00	3- .25 10- .70	4- .25	*
252 ZAMPA—Light medium red with narrow but distinct edging of cream. Distinctly different from Atom, Gilt Edge, or Kewpie. An excellent, very old variety.	1- .35 3-1.00	1- .25 3- .70	2- .30 5- .60	
233 ZONA—Salmon pink with attractive, diffused rose blotches on a yellow throat. A very pleasing color combination. Opens 5 beautiful florets on a nice spike. Excellent especially as a cut flower.	2- .25 10-1.00	3- .25 10- .70	5- .25 10- .50	40- .25 100- .60

MIXED BULBS

SMALL FLOWERING VARIETIES

Since a great many people do not care to bother with the names of the various varieties, but just want something that will give them a fine lot of blooms, I will make up mixtures containing many colors and shades. These will NOT be labeled as to variety and they will not be just a few varieties of mostly two or three colors, as is many times the case, usually 40 or more varieties. If a mixture of all 100 size is wanted, it would not be possible to include so many different ones. I do not grow or have ready mixed bulbs, but make the mixtures for each order separately after order is received. If there is any color you do not like, just tell me and I will gladly leave it out, however, the selection of varieties must be left to me. These are the same bulbs you would buy if you ordered by name only at a much lower price, since individual packing takes time and costs money. I sell a great many of these mixtures each year and have received many compliments. Many tell me that they and their friends have never seen anything like them.

MORE VARIETIES

In addition to the above list I am growing many more varieties of these little ones which I do not have in sufficient quantity to even list with the limitation of one or two to a customer. If there is some variety of which you might like, a single bulb or two and do not find it listed, write me. I might have it and might be able to spare you one.

Mr. Kaplan has been growing glads for 17 years and for some 13 years has done considerable hybridizing. For the past 7 years he has done a lot of exhibiting. During this time he has grown some 25,000 seedlings and the above 3 are the first he has ever introduced. He has grown all 3 for about 10 years so that he knows they are going to stand up and not soon fall by the wayside as do so many new introductions.

A 1951 INTRODUCTION

From Maurice O. Maynard

GAYBROOK — Class 401. I grew a small amount of this last year and was so impressed with it that I have made arrangements with Mr. Maynard to list it this year. Its color is white with quite a lavender tint and a large conspicuous deep lavender (almost purple) blotch. It opens 6 and 7 very colorful florets with 5 and 6 more in color on very long flowerheads. It is very attractive and you should like it.

MIXED BULBS

LARGE FLOWERING VARIETIES

Since a great many people do not care to bother with the names of the various varieties, but just want something that will give them a fine lot of blooms, I will make up mixtures containing many colors and shades. These will NOT be labeled as to variety and they will not be just a few varieties of mostly two or three colors, as is many times the case, usually 40 or more varieties. I do not grow or have ready mixed bulbs, but make the mixtures for each order separately after order is received. If there is any color you do not like, just tell me and I will gladly leave it out, however, the selection of varieties must be left to me. These are the same bulbs you would buy if you ordered by name, only at a much lower price, since individual packing takes time and costs money. I sell a great many of these mixtures each year and have received many compliments. Many tell me that they and their friends have never seen anything like them.

PRICES FOR MIXED BULBS

Large	\$5.50 per 100
Medium	3.75 per 100
Small	2.50 per 100
50 bulbs at the 100 rate	

When ordering this large flowered mixture, be sure to list it on your order as LARGE FLOWERING VARIETIES, for I have also listed a mixture for the small flowering varieties at the same price.

October 10, 1952

"Undoubtedly you will recall that on March 2nd, I ordered 100 Medium Mixed Bulbs, requesting dark colors. Thought you might be interested to know that they proved all that could be expected and more, in fact, they took a "Blue Ribbon" at . . . and the competition was stiff."

JOIN A GLADIOLUS SOCIETY

No matter how few glads you grow, it will add much to your enjoyment and information to join one or more of the Gladiolus Societies. We have two major societies, the NEW ENGLAND GLADIOLUS SOCIETY, Florence E. Butterfield, Membership Secretary, Horticultural Hall, 300 Massachusetts Ave., Boston 15, Mass., and the NORTH AMERICAN GLADIOLUS COUNCIL, Henry Sentman, Membership Secretary, 820 Ontario St., Havre de Grace, Md. There are also many state and local societies. The N. E. G. S. issues four magazines during the year in addition to an excellent yearbook. The N. A. G. C. issues four quarterly bulletins. Many of the state and some of the smaller societies issue some bulletins or magazines and some issue yearbooks also. All these publications are included in your membership and are very interesting and instructive. Many of these societies have combination membership offers which reduce the dues somewhat.

YOUR FUTURE CATALOGUE

Even though my catalog is as simple and inexpensive as it is possible to be and do justice to the descriptions of the various varieties, it still costs a lot of money. If you are going to be interested, I want you to have it and there is going to be no charge to you for it. Doubtless there are many on my mailing list who are no longer interested, therefore, after catalogs have been sent for 3 or 4 years and no orders have been received during that time, I shall find it necessary to discontinue them unless you request that I continue to do so. Remember, I am only too glad to continue if you are still interested.
